of safes for all applications:***

- **Fire-resistant**
- **Burglar-resistant**
- **Data**
- **Security**
- **Deposit**
- **Hotel/Motel**
- **Key Control Cabinets**

FIRE-RESISTANT HOME & OFFICE SAFES

SAFEGUARD fire-resistant safes are made from quality materials and products offering you maximum protection against fire. All SAFEGUARD fire safes are tested and approved by independent international organisations. SD series safes are key and combination locking with internal deadbolts on the hinge side to resist hinge attacks. Models from SD105 and up have changeable combination locks with independent relockers.

All sizes in mm

Designed for safe storage of paper and valuables against fire and the opportunist burglar.

All rated for 1-2 hour depending on model.

NOT DESIGNED FOR DATA AND COMPUTER MEDIA.

FIRE-RESISTANT HOME & OFFICE SAFES

SAFEGUARD ESD series safes are electronic digital safes that require the correct code and key to open. A master key is standard which will override the standard key and code in case of lost code or flat batteries. Two individual codes can be preset with 3-6 digits.

All ESD series safes are powered by four AA batteries (alkaline recommended) which will last approx 12 months (subject to usage).

SAFEGUARD MAX SERIES – COMMERCIAL DEPOSIT SAFES

Commercial grade deposit safes are constructed from heavy gauge steel with a concrete barrier material. All Max Series safes have independent relockers for greater security.

TK40WS
71240/004

Top loading deposit slot with anti-fishing device to make withdrawing deposits out harder.
Bolt down facility for greater resistance from unauthorised removal.
Two independent relockers with glass plate protecting the locking system.

External 510h x 430w x 510d

Internal 365h x 280w x 280d

Weight 210kg

TK50MD
71980/004

Designed for larger deposits of cash bags or valuables.
Deposit is made by inserting items in top drawer.
Once drawer is closed deposit enters main safe.
Top drawer has a key lock to stop unauthorised deposits being made.

TK50MD has all the security features of the TK40.

External 630h x 535w x 530d

Internal 465h x 365w x 315d

Weight 370kg

TK120MD
72640/004

Same features as the TK50MD but with a larger capacity.

External 810h x 635w x 635d

Internal 635h x 457w x 406d

Weight 580kg

SAFEGUARD MAX SERIES – COMMERCIAL SAFES

Commercial grade safes are constructed from heavy gauge steel with a concrete barrier material, offering a higher level of security against burglary attacks. Max Series safes offer security features that are normally only found in larger, more expensive safes.

TK30
71090/004

This is a popular safe for home, office or commercial business.

Bolt down facility for greater resistance from unauthorised removal.

Two independent relockers with glass plate protecting the locking system.

External 395h x 500w x 530d

Internal 250h x 360w x 310d

Weight 200kg

TK40
71175/004

This is the most popular safe for bars, restaurants, and retail stores which require high security but with a limited amount of space.

External 510h x 430w x 510d

Internal 365h x 280w x 280d

Weight 210kg

TK50
71700/004

Ideal for larger cash outlets and businesses that require larger capacity for valuables and documents

One adjustable shelf is standard.

External 630h x 535w x 530d

Internal 465h x 365w x 315d

Weight 360kg

TK120
72470/004

Same as the TK50 but with larger capacity and an additional shelf. Ideal for retail stores that require till drawers to fit into the safe after hours.

External 810h x 635w x 635d

Internal 635h x 457w x 406d

Weight 580kg

All TK Series safes can be fitted with digital locking systems. See back page.

STEEL PLATE HOME/OFFICE/HOTEL SAFES

Steel plate safes come in a variety of sizes and thicknesses. Generally the thicker the steel, the more protection you will achieve against attacks with tools. As with any safe, we recommend that they are bolted securely to a solid base.

Economical home or office safe.
Concealed hinges.
Digital keypad.
Emergency key override.
External 250h x 350w x 250d 10kg

SFT25EA24
770/004

SFT25EC
7100/004

Home/office/hotel safe.
Liquid crystal display to confirm entry and display low battery warning.
Emergency radial key override.
External 250h x 350w x 250d 10kg

Hotel/motel/office safe.
Ideal safe for the storage of laptop computers and other valuables.
Liquid crystal display.
One centre shelf.
External 220h x 430w x 350d 19kg

SFT35EC
7190/004

Home/office safe.
Digital locking with emergency key override
3-6 digit code can be reset by the user.
Powered by four AA batteries lasting up to 12 months (depending on amount of openings)
One centre shelf.
External 520h x 350w x 360d - 22kg

SFT56EA

IN-GROUND FLOOR SAFES

Floor safes offer an affordable alternative to larger freestanding safes with the added protection of being concealed in the floor.

When properly installed in a concrete floor, these safes will provide excellent fire and burglary protection. We recommend that valuables are placed inside sealed containers to protect them in case of flooding or moisture build up. All floor safes come complete with flush mounted cover plates.

TKVESTA-JNR
7430/004

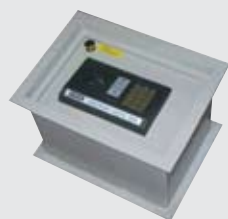

The VESTA range of floor safes offer an inexpensive level of security with removable door/lid.

TKVESTA-JNR 300h x 250w x 250d

TKVESTA 300h x 350w x 350d

B25 460h x 320w x 370d 44kg

DIPLOMAT DATA SAFES

Magnetic media such as diskettes, floppy disks and data cartridges are easily damaged and susceptible to low levels of heat or humidity. Backup tapes are not replaceable and should be stored only in approved security containers such as the Diplomat Data safes.

These have been designed to protect your data media from fire, floods and magnetic fields.

Would your business survive if you lost all your computer records?

DS1125EN
7610/004

The DS1125EN data safe is the smallest in the range of freestanding data safes. Digital locking offering easy opening and closing to ensure that it is always closed when not in use.

External 412h x 352w x 433d
Internal 213h x 153w x 172d
Weight 41kg

DS1530EN
7725/004

The DS1530EN is ideal for the small business with capacity for 42 CDs. Standard digital locking system.

External 514h x 404w x 440d
Internal 303h x 193w x 172d
Weight 59kg

**Digital safe locks for all office and commercial safes.
These locks can be fitted to most models.**

Kaba MAS digital safe locks are a commercial grade lock offering a high level of security and is simple and easy to operate.

Single Mode – one correct code will open safe or change new combination.

Dual Mode – two correct user combinations are required to open safe (manager 1, user 2)

Super Master Control – a super master control code can be set at time of installation. This is used to reset the functions and settings of the lock. **This super master control cannot be reset.**

Powered by 9V Energizer battery giving approximately 12 months life (depending on usage).

Battery can be changed by the operator without opening the safe.

12 months warranty on parts and labour nationwide.

Prices Effective 01/04/2009

Prices are subject to change without notice.

Prices do not include GST
